

SYED MOHSIN ALI

VISUAL COMMUNICATION DESIGNER

PROFILE

Visual Communication Design student at Beaconhouse National University with a passion for game design, digital storytelling, and 3D art. Combining a foundation in Computer Science with creative design, I create engaging visual experiences through branding, animation, photography, and interactive media. Experienced in Unreal Engine 5, Blender, Adobe Creative Suite, and game development workflows.

EDUCATION

2024 – Present

Beaconhouse National University (BNU)
Bachelor of Visual Communication Design

- Current GPA: 3.7

PROJECTS

Graphic Design

- Designed branding systems, posters, editorial layouts, and marketing materials.
- Produced motion graphics and video edits using Adobe Premiere Pro.

Blender, Unreal Engine 5, Game Development

- Designed interactive game environments and level layouts.
- Modeled, textured, animated, and rendered 3D scenes for academic projects.
- Produced short animations using cameras, lighting, and materials.
- Built cinematic scenes with environmental storytelling, lighting, and assets.
- Designed interactive game environments and level layouts.
- Created gameplay prototypes using Blueprint visual scripting.
- Built cinematic scenes with environmental storytelling, lighting, and assets.
- Designed and developed multiple 2D games using Python and C++.
- Implemented gameplay mechanics, collision detection, scoring systems, and user interaction.
- Applied object-oriented programming principles to build structured and reusable code.

Creative Coding & Web Development

- p5.js, HTML, CSS & JavaScript
- Created interactive visual art and generative graphics.
- Explored animation, procedural design, and creative coding techniques through JavaScript.
- Designed and developed responsive website projects.
- Built portfolio pages and interactive web layouts.
- Applied fundamental front-end development principles and user interface design.
